

Experience API

Provides:

This API provides the ability to collect data about the wide range of experiences a person has using your website.

Key Provisioning:

Pain factor (0=easy...5=nightmare): 

- No key provisioning needed

Quotas:

- Must need to build a Learning Record Store (LRS) in order to use the API

The Good:

- Potential in using this API for your project seems limitless
- Able to track user activities

The Bad:

- Building an LRS is difficult and probably not worth the effort when doing small scale projects. As the site says, this api comprises of 4 other apis, and learning how this api works is challenging.

The Ugly:

- ...
